Job Description

Duties:

- Maintain and enhance enterprise financial systems, including cryptocurrency trading, token exchange, and financial modeling platforms;
- Design and develop new financial systems and software modules.

Requirements:

- A university degree in Engineering, Computer Science or related field is required;
- 5-10 years of working experience with server-side frameworks (Java, Kotlin) such as Spring and Spring Boot;
- 3-5 years of working experience with Node.js server-side frameworks (e.g., Express.js) and TypeScript;
- 3-5 years of working experience with relational databases, blockchain technology, and cryptocurrencies;
- Experience in sysadmin and DevOps practices (Linux/Unix, Docker, Shell scripts, Jenkins, etc.);
- Experience in developing high-performance, mission-critical financial systems;

- English language is required.

Preferred Skills:

- Knowledge of Machine Learning.
- Knowledge of iOS Application Development.
