Full Time	CAD \$25-\$26/h	Experience an asset	No degree, certificate or diploma

### Job Details

- Handle the delivery, unloading, and relocation of building materials to where they're needed on site.
- Set up and take down temporary structures like scaffolding, ramps, and concrete forms to support ongoing construction work.
- Help mix and pour concrete or asphalt, and assist in smoothing or finishing surfaces when required.
- Work alongside carpenters, bricklayers, and other trades to support framing, masonry, roofing, and other construction tasks.
- Use or assist with tools and machines such as jackhammers, tampers, compactors, or concrete vibrators under supervision.
- Keep the site clean and safe by clearing debris, disposing of waste, and removing any hazardous materials when necessary.
- Assist in demolition work by using hand tools to tear down structures and help organize reusable materials.
- Monitor and load machines like mixers, pumps, or compressors with materials, and perform basic equipment checks.

#### Benefits:

- CAD 1000 per month for accommodation, meals, and transportation allowance.

### Job Description

- Experience as a general construction labourer is an asset.
- On-the-job training will be provided.
