Job Description

Duties:

- Schedule installation jobs in conjunction with the branch team, clients, and sub-trades/employees to ensure smooth on-site operation of prefabricated interior wall installations
- Oversee employees and sub-trades on-site to ensure quality control standards are implemented and met on every installation
- Act as on-site client liaison to ensure customer satisfaction during and after completion of installation work, including providing progress updates and photo documentation
- Provide training to employees and sub-trades on job duties, installation procedures, safety procedures, and company policies
- Coordinate delivery schedules with the factory and purchasing; monitor on-site inventory levels and reorder materials as necessary to maintain adequate supply
- Ensure health and safety regulations and applicable building code requirements are followed on all job sites

Qualifications:

- Completion of secondary school is required
- A minimum of 2 years of experience in lathing (interior systems) or a related interior wall installation trade is required
- Previous supervisory experience is an asset
- Trade certification for lathers (interior systems mechanics) is an asset
- Red Seal endorsement is an asset
- English language ability is required
