Job Details

Job Summary

We are seeking a motivated and skilled Cement Finisher to join our dynamic construction team. In this role, you will be responsible for applying finishing techniques to concrete surfaces, ensuring smooth, durable, and high-quality results on various construction projects. Your expertise will help transform raw concrete into polished floors, walkways, and other structures that meet precise specifications. This position offers an exciting opportunity to work on diverse projects, from new builds to restoration and renovation efforts, contributing to the creation of safe and aesthetically pleasing environments.

Job Summary

We are seeking a motivated and skilled Cement Finisher to join our dynamic construction team. In this role, you will be responsible for applying finishing techniques to concrete surfaces, ensuring smooth, durable, and high-quality results on various construction projects. Your expertise will help transform raw concrete into polished floors, walkways, and other structures that meet precise specifications. This position offers an exciting opportunity to work on diverse projects, from new builds to restoration and renovation efforts, contributing to the creation of safe and aesthetically pleasing environments.

Duties

- Smooth and finish freshly poured concrete using hand tools such as trowels, floats, and edgers to achieve desired textures and levels.
- Operate power tools including power trowels, screeds, and grinders to expedite finishing processes.
- Read and interpret blueprints, schematics, and construction drawings to ensure accurate application of concrete finishes.
- Install rebar reinforcement and assist with form setting to prepare surfaces for pouring concrete.
- Perform heavy lifting of materials and equipment safely while adhering to safety protocols.
- Conduct restoration and renovation work by repairing existing concrete surfaces or modifying structures as needed.
- Use masonry skills for related tasks such as caulking, flooring installation, and minor carpentry or welding tasks to support project requirements.

Skills

Strong mechanical knowledge related to heavy equipment operation and maintenance.
Proficiency in rebar installation, concrete forming, and blueprint reading.
Skilled in the use of hand tools and power tools essential for concrete finishing and masonry work.
Experience with construction projects involving flooring installation, restoration, or renovation.
Ability to interpret schematics and technical drawings accurately.
Knowledge of welding techniques beneficial for structural repairs or modifications.
Physical strength for heavy lifting tasks combined with excellent attention to detail for achieving smooth finishes.
Join our team if you're passionate about craftsmanship, eager to develop your skills in a fast-paced environment, and ready to contribute your expertise toward building durable, high-quality structures!
