Job Description

Duties:

Read and interpret blueprints, drawings and specifications to determine installation requirements for retail fixtures,

millwork, and tenant improvement projects

Travel to client and retail store locations throughout the Lower Mainland to install fixtures, millwork, and custom finishes

Install fixtures such as doors, crown moldings, cabinets, and countertops according to blueprints and manufacturer specifications

Inspect and repair damaged framework, fixtures, and millwork, including responding to service calls

Fit and finish custom wood fixtures and furniture produced in the shop for on-site installation

Operate hand and power tools safely for on-site cutting, fitting, and finishing work

Follow all company health and safety policies and procedures and ensure they are respected by all personnel and subcontractors

Practice good housekeeping discipline on the job to ensure a safe, non-cluttered workplace and to minimize cross contamination

Qualifications:

Secondary school completion is required

College Diploma or certification in a recognized construction/carpentry course preferred

At least 2 years of experience in carpentry is required

Red Seal endorsement is an asset

Trade certification is an asset

English language ability is required
