Job Description

Main duties and responsibilities are as follows but not limited to:

• Check formwork, granular base and steel reinforcement materials and direct placement of concrete into forms or onto surfaces according to grade
• Cutting and fastening wood for framing, finishing or concrete work
• Fill hollows and remove high spots to smooth freshly poured concrete
• Operate power vibrator to compact concrete; use various hand and power tools
• Level top surface of concrete according to grade and depth specifications using straightedge or float, chipping, drilling and cutting concrete
• Install anchor bolts, steel plates, door sills and other fixtures in freshly poured concrete; install air and vapor barriers on wall and foundation systems.
• Apply hardening and sealing compounds to cure surface of concrete
• Waterproof, damp-proof and restore concrete surfaces
• Move materials to work areas; site clean up
• Repair, resurface and replace worn or damaged sections of floors, walls, roads and other concrete structures.
